

## STATEMENT OF PURPOSE

### RS25249C1

The legislation adds a new section to Idaho Code, 33-1628. The new section will authorize and encourage school districts to adopt and offer an elective course in firearms safety education and to authorize instructors who will teach the courses.

### FISCAL NOTE

There is no fiscal impact on the state General Fund because this is an authorization but not a requirement for school districts to participate. The new course, like other elective courses may be offered within existing resources for the schools.
